

The Visible Guy

## **SPEAKER BIOGRAPHY – THE VISIBLE GUY**

The Visible Guy knows firsthand the impact change has on organisations and individuals.

He has spent over 20 years enabling others to navigate and commit to change. The Visible Guy supports, helps and guides you through the maze of self-belief, breaking down barriers, encouraging self-driven accountability and celebrating success.

He has held senior positions for 5 of the world's leading financial institutions and advised some of Australia's wealthiest private families. He is Chair of Lung Transplant Research Australia ('Lungitude Foundation') delivering world's best practice and better life expectancy for lung transplant recipients and their families.

The Visible Guy has been quoted in the CEO Magazine and is a regular contributor to various business and self-development organisations/publications. He has featured on global podcasts including The Bucket List Guy and The Hidden Why.

He is regularly asked to present and demonstrate why and how #networkwithpurpose enables you to #bevisible above and beyond your competition.

He has faced many challenges, some life and death situations. He has ended up in the strangest of places such as the Asian jungle instead of the Australian Outback. He is proof that networking with purpose will navigate you through the most dramatic changes in your life and your organisation. You can and will be in control of your outcomes.

Each year our heart beats on average 42,000,000 times. Do you make every heart beat count?

Today, he shares his knowledge, enabling the seemingly unimaginable outcomes to happen. You become visible in a way that suits you. YOUR path. OUR journey.

*The Visible Guy proudly supports the Lungitude Foundation - forging the path to a longer and better life for lung transplant recipients and carers. He contributes at least 5% of his engagement fee to the Foundation.*
